

HOLSTEIN USA ELITE PERFORMER AWARD

Eligible cows across the country are ranked based on pounds of combined fat and protein per day in milk. The top one percent receive the National Elite Performer award. Those National Elite Performers are then removed from consideration and the top one percent of eligible cows from each of the nine regions are honored as Regional Elite Performers.

All cows currently enrolled in TriStarSM are automatically evaluated annually. Elite Performer recognition is a lifetime award and is printed on a cow's pedigree, found underneath her milk production records. To be considered, cows must have completed 3 lactations in a TriStar herd, be higher than 87% RHA and classified higher than VG 85.

Congratulations to CA breeders and cows qualifying for this award in 2024!
